A new line of products can alert the medics in an emergency situation, while at the same time looking fashionable. There is no need to dislike your medical ID any longer.

As a diabetic, Susan Eisen knew the important of protecting herself, but as a jeweler she knew the importance of personal style. Exasperated by the lack of options and inspired by her love of jewelry, Eisen set out to create a line of beautiful, high quality pieces with the potential to save lives.

The result was LIFETAG® Medical Identification jewelry. Designed for men, women and children and with enough variety to suit any taste, LIFETAG® Medical Identification jewelry is a triumph of aesthetics and safety. Besides several stylish variations on the traditional medical I.D. bracelet, the LIFETAG® collection includes:

- Beaded Bracelets
- Charms
- Key Chains
- Watches
- Pendants
- Wallet Cards
- Anklets
